Team PlaTra

$\text{Pla}(n) + \text{Tra}(\text{vel})$

- ▶ Maximilian Griesser
- ▶ Patrick Mitterer
- ▶ Felix Schett

Description

The Applications goal is to create a timetable with activities, places and events for your holiday, to make the planning easier.

The Users enters his holiday destination, arrival time and departure time. Our application will then look up possible activities, events and places and create a timetable which can be edited and stored by the user.

Identified services

- ▶ TripAdvisor Content API
